

Dylan Truong
(408) 856-4262 | dylanlongtruong@gmail.com

EDUCATION

University of California, Irvine **Irvine, CA**

B.S. Mechanical Engineering In Progress | GPA: 3.92

Relevant Coursework

Thermodynamics, Statics, Dynamics, Linear Algebra, Multivariable Calculus, Fluid Mechanics

SKILLS & CERTIFICATES

- [MATLAB](#)
- SolidWorks: CAD, FEA, and Drafting Analysis
- Microcontrollers/Arduino
- 3-D Printing
- Circuit Analysis and Soldering
- Laser Cutting
- GD&T/Engineering Drawings
- Microsoft Word, Excel, PowerPoint

Internships and Work Experience

UniSUC by Alpep (Med-tech company specializing in unisex external catheters) **Orange, CA**
Design Intern, Inventory, and Assembly Associate *Jul 2026 - Present*

- Designed injection-molded frame components in CAD
- Ran the liner assemblies and performed quality assurance on the ultrasonic welds on the material
- Assembled the pumps powering the external catheters
- Performed maintenance on liner assembly machinery as well as plastic wrap machinery

Lavner Education

Summer Camp STEM Instructor **San Jose, CA**
Jun 2026 - Aug 2026

- Taught students in robotics: basic circuit analysis, robot assembly, and Scratch coding
- Taught students 3-D printing and computer-aided drawing in Tinkercad
- Learned how to effectively communicate and teach advanced topics to those with less experience

Din Tai Fung

Front of House Support **San Jose, CA**
Jan 2025 - Sept 2025

- Delivered food to tables with maintained precision and efficiency in a high-volume environment, ensuring smooth guest service under pressure.
- Demonstrated teamwork and communication skills by turning tables in a quick and efficient manner.

PROJECTS

Payload Robotics Challenge *Sept 2025 - Dec 2025*

- Designed in CAD and assembled an Arduino-controlled robot to move through a set course
- Utilized feedback control in conjunction with servos, solenoids, and pneumatic pistons for motion
- Applied concepts of filtering, circuit analysis, and voltage control via MOSFETs.

Zotbotics @ UCI

Spider-bot Robotics Project *Sept 2025 - Dec 2025*

- Developed a small quadruped robot capable of autonomous movement and control
- Assembled and soldered circuits integrating sensors, servos, and a microcontroller for motion control.
- Gained hands-on experience in mechanical design, electronics assembly, and robotic systems integration.

SolidWorks Custom-Built Motorcycle

Sept 2025 - Dec 2025

- Custom-designed and dimensioned motorcycle assembly
- Demonstrated knowledge in assemblies, sub-assemblies, and advanced SolidWorks techniques

Leadership Roles and Extracurriculars

UC Irvine Brazilian Jiu-Jitsu Club **Irvine, CA**

Club President *Aug 2023 - Aug 2024*

- Oversaw entire club operations such as member outreach, competitions, and fundraising
- Boosted club visibility and member engagement by producing high-quality video content and graphics
- Managed business and social inquiries related to the club,

Santa Clara Valley Medical Center

Lead Volunteer, Visitor Screener, and Escort **San Jose, CA**
Aug 2023 - Aug 2024

- Supervised other volunteers and allocated them to different positions to meet hospital visitor and patient needs.
- Practiced professionalism, rapid decision-making, and effective communication in a critical healthcare setting
